Welcome to Central Coast living at its finest! This turn key, beautifully upgraded home on a quiet street leaves nothing to be desired. As you approach the home you will immediately notice the custom driveway and walkway surrounded by tasteful low maintenance landscaping. As you enter the home you are welcomed into the main living room by a cozy fireplace and high ceilings. New carpet with extra plush padding in the living room adds to that cozy feel. Clean lines and soft fresh paint tones give this home a neat and relaxed feel. The large dual pane windows and recessed lighting throughout make the home shine whether day or night. The surround sound system in the living room is perfect for watching a movie or the big game, and the large TV stays with the home! The kitchen boasts custom granite countertops with a pristine tile back splash. Also included with the home are a brand new stainless steel dishwasher, a stainless steel gas oven, microwave, and top-of-the-line refrigerator. Both the guest and master bathrooms have been nicely updated and are spacious. The master bedroom has a large walk-in closet. Your backyard is home to peach, loquat, and apricot trees with beautiful flowering plants, yet is still incredibly easy to maintain. Though the neighborhood is inviting, there is an alarm system for added security. With its close proximity to schools and shopping there truly is nothing that this home is missing.
